Lesson n. 13  19-25 December 2020

Heaven, Education and Eternal Learning

**Principle Themes to Explore**

1. We start a process of education and knowledge acquisition here on earth that will last for eternity.
2. Every act of education occurs as a function of the present and the future – it is educating for the hereafter.
3. The knowledge of the universe, of ourselves and of God, which is now partial, will be complete at the school of the greatest and most extraordinary Teacher.

**Suggestions for Teaching**

If, for all eternity we will have the opportunity to grow in knowledge and maturity, then how much more we should desire to learn in the here and now.

**Possible questions for sharing and discussion**

1. How would you help someone who does not believe that God wants to give eternal life to everyone?
2. Read 1 Cor. 13:12. What does this text inspire with regards to knowledge, education and eternity?
3. What knowledge must we seek already in this life in order to be admitted to the eternal school? How can we be at the Master’s school here and now?
4. How can we transmit the desire to have this knowledge to those around us?

**Group Objectives**

**Pastoral**

I and my brethren:

*Share the needs of those present and pray for each other.*

**Spiritual**

I and the Word:

*Facilitate dialogue on the prospects for present and future growth proposed by the lesson.*

**Missionary**

We, in service and witnessing:

*Ask the Lord to bring clarity on how to present to others the topics studied this quarter and in particular this week.*
